MIND, BODY & SOUL SOOTHING

GROUND WELLBEING RITUALS

GROUND Wellbeing was curated with deeply rooted health and wellness in mind. Every movement within each treatment has been skillfully formulated to support the body's functions with grace and strength. Give the gift of purpose and intention to your loved ones this season with one of our GROUND Wellbeing Rituals.

GROUND WELLBEING TREATMENTS

GROUND crafts 100% natural plant-based ingredients to create products and intuitive self-care rituals. All of the products are handmade in small batches in Cork, Ireland, using vegan ingredients; organic where possible, and blended with sincere intention to soothe the soul.

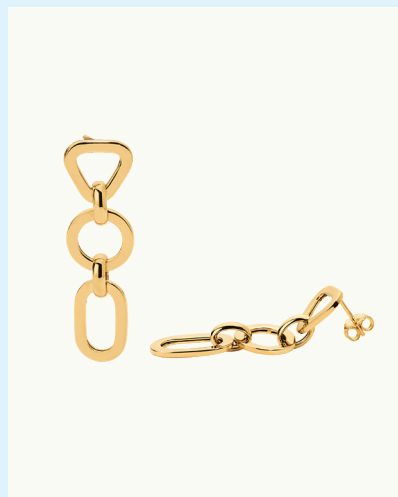

JEWELRY & FASHION

SARA SHALA DESIGNS

Born in New York City, Sara Shala designs celebrate the rich heritage and artistic legacy of the local vibrant culture.

Each piece reflects the essence of this culture, combining traditional craftsmanship with high-tech production while supporting local artisans. This fusion allows the creation of jewelry that conveys exquisite elegance.

The passion behind these designs is to create top-quality, sustainable, and authentic pieces that will last a lifetime.

MAISON DE PAPILLON

Maison de Papillon's collection of luxury women's apparel effortlessly transitions from lounge-wear to evening wear and everything in between.

Whether lounging, traveling, working or enjoying an evening out, the transitional pieces are designed for the sophisticated woman who values style and elegance without sacrificing ease and comfort.

The collection is designed in New York City, crafted with exceptional skill and attention to detail, and made from superior natural fiber fabrics.

SIMON PEARCE

Since the beginning, Simon's life has centered around functional, sophisticated design. Growing up in Ireland with a family of artisans, attention to detail and aesthetics were part of his everyday experience. At age 16, Simon began his craft as an apprentice at his father's pottery studio.

From there, he went on to work with notable glassmakers all over Europe before opening his namesake studio. Inspired by centuries-old Georgian glassmaking techniques and using the finest natural materials, Simon set out to create designs that bring pleasure and inspiration with every use, every day.

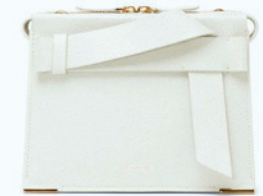

All Simon Pearce products are now proudly made in Quechee, Vermont.

SILKEN PURE ROBES AND PAJAMAS

These robes and pajamas are made with mulberry silk, a pure protein fiber with 18 amino acids that harness both health and beauty properties, making this the highest quality, earth friendly silk in the world. It truly is a small luxury with big benefits.

SENREVE – FINE ITALIAN LEATHER BAGS AND ACCESSORIES

SENREVE is built upon the coexistence of dichotomies: everyday and fantasy, tradition and innovation, design and versatility—creating an elevated experience that defies trade-offs. This philosophy is behind everything they do and built into the name, which is derived from the French words for “sense” and “dream.” As rising female professionals, the creators sought the perfect luxury handbag that was both beautiful and versatile for everyone’s busy lives, but found designer bags lacking. So, SENREVE was created to empower women with versatile designs, like crossbody bags that become backpacks and clutches with hidden pockets. These bags seamlessly blend elegant design, impeccable quality, and innovative construction, making them travel-friendly and suitable for both business meetings and social gatherings.
